INTRODUCTION

This report was prepared by the West Virginia State Census Data Center to make available the 1980 census data contained on Summary Tape File 3 (STF 3). STF 3 is one of a series of data files available from the 1980 Census. This file corresponds to the 1970 Fifth Count file. While STFs 1 and 2 contained 100% or complete-count data, STF 3 comes from sample data and provides estimates rather than actual counts. In most cases, the estimates were based on a sample of one household in six. In places with a population of less than 2500, the sampling rate was one household in two. While data items have been weighted by the Census Bureau to represent the total population, users should be aware that figures provided by STF 3 will differ slightly from comparable ones on STFs 1 and 2.

This publication contains a majority of the tables from STF 3 and provides data items for three geographic levels. The first section presents information for the State and each of the 55 counties. The second section presents data for all 273 incorporated and census designated places.

Detailed data on population, education, labor force, income, poverty, households, and housing units are contained in this report. Suppressed data are designated by a '.' in the tables that follow. The Bureau suppresses data to maintain the confidentiality promised respondents and required by law. These data are never made public.

Users should be aware that the noncondominium value and selected monthly owner costs distributions for housing units are restricted to certain kinds of "owner-occupied" units. The following are excluded from the tabulations for noncondominium units:

A. Units at an address with two or more units.

B. Units on ten or more acres.

C. Units with a commercial establishment or medical office on the property.

D. Mobile homes or trailers.

Gross rent and contract rent are tabulated for all "renter-occupied" units except one-family homes on a property of ten or more acres.

The column headings for the table entitled, "Employed Persons 16 Years and Older by Industry" include the following industries:

AGRI - agriculture, forestry, fisheries, and mining
CONST - construction
MANUFAC - manufacturing of durable and nondurable goods
TRANS - transportation
COMMUNICATIONS - communications and other public utilities
WHOLESALE - wholesale trade
RETAIL TRADE - retail trade
REAL ESTATE - finance, insurance, and real estate
BUSINESS - business and repair services
RECREATION - personal, entertainment, and recreation services
PROFESSIONAL - health services, educational services, and other professional and related services
PUBLIC ADMIN - public administration

The column headings for the table entitled, "Employed Persons 16 Years and Older by Occupation" include the following occupations:

MANAGERIAL - executive, administrative, managerial, and professional specialty occupations
TECHNICAL - technicians and related support occupations, sales, and administrative support occupations, including clerical
SERVICE - private household, protective service, and other service occupations
OPERATOR - machine operators, assemblers, inspectors, transportation and material moving occupations, handlers, equipment cleaners, helpers, and laborers.
FARMING - farming, forestry, and fishing occupations
REPAIR - precision production, craft, and repair occupations

Definitions of the variables shown in the tables can be found in the 1980 Census Glossary or in Summary Tape File 3 Technical Documentation. Copies of the technical documentation can be purchased from the Office of Health Services Research or from Data User Services Division, Data Access and Use Staff, Bureau of the Census, Washington D.C. 20233.
